

Taste our land with five senses

MISSION

Pretty often I drive through the back roads between Vittorio Veneto and Conegliano.

A wonder of nature and human genius opens in front of my eyes.

A landscape where the human heritage and the natural beauty dramatically interact.

Unfortunately this cornucopia of human and natural richness is mostly unknown. Thousands of cars drive thorough the nearby highway heading to the crowded Venice or Florence in the vain hope of catching the Italian spirit. And they skip the heart of the Italian soul.

Treasures Unveiled core mission is to bridge this gap.

It is the mission of allowing the visitors to meet the secret beauties in art, landscapes, unique activities, food and beverages: the deep meaning of our culture.

We invite our guests to come to our land and have a multi sensory experience.

The logo chosen for our non profit cultural association refers to the Gordian knot that according to the legend Alexander the Great cut with his sword meaning that sometimes finding treasures it's much easier than you expect. Just off the busy highway absently driven.
